Xtract Resources Plc
("Xtract" or "the Company")

Processing plant at Chepica Mine to restart

Xtract Resources Plc (AIM:XTR) announces that the processing plant at its Chepica Gold and Copper Mine in Chile (the "Mine"), has been granted permission to restart.

The Inspector of Mines visited the mine earlier this week and found that management had implemented all the required recommendations. Following a delayed visit from the Inspector of Works, the Company confirms that both Inspectors have now granted permission for the processing plant to restart.

The plant will restart on Friday morning and will be back to full capacity in a few days.
